Dear Mr. Marlow:

We have reviewed the draft claims that accompanied your letter to Beverly Monroe following our telephone conversation of May 1, 1992. We suggest the following changes:

5. The heat source of claim 2, wherein the high ignition temperature component has an ignition temperature in the range of 600 to 700°C and a combustion temperature in the range of 750 to 900°C.

5a. The heat source of claim 1, wherein the high ignition temperature component has an ignition temperature in the range of 500 to 700°C and a combustion temperature in the range of 750 to 900°C.

Please feel free to contact us if we can be of further assistance.

Sincerely,

Marta E. Gross
